PROFILE

Passionate and creative problem solver. Learning junkie in love with Computer Science. Ruby applied to web applications is my de facto specialty.

I am a result-driven person, and I favour measurable facts over intuitions when it comes to leading myself and others. I also believe proper teamwork is the only way to go in our field. I am Swiss and I speak English / French with a tad of German.

#ContinuousDelivery #Human-LeadingHumans #DogsOverCats

SOME SKILLS

Communication

Project Management

Eternal Learner

Ruby

Docker

EXPERIENCE

Present
Nov. 2015

Nine Internet Solutions AG, Zurich
SENIOR SOFTWARE ENGINEER

In charge of maintaining our software infrastructure (150+ services), along with the other engineers (20 people). Lately moving our internal infrastructure to Openshift (containerization platform). Responsible of our remote team in Serbia to coordinate our efforts on the daily business (3 people).

Sept. 2015
Nov. 2014

Fusioneer Limited, Dublin
SOFTWARE ENGINEER

Development of sportsinteraction.com, one of the biggest sports betting website in Canada. This entailed a migration to a Ruby on Rails application from a Coldfusion backend, introducing continuous delivery along with an agile workflow within the team.

Aug. 2014
Oct. 2013

Paatle AG, Zurich
SOFTWARE ENGINEER

Worked on making the second version of the paatle.com social network (now discontinued). I was also in charge of designing and creating the REST APIs for mobiles.
